

Initial Notice of Contamination Beyond Property Boundaries

HWL-539/Fec-19360

DEP Form # 62-780.900(1)
Form Title: Initial Notice of
Contamination Beyond
Property Boundaries
Effective Date: 12-27-07

CORRESPONDENCE IN

This form provides written notification of the discovery of contamination [as defined in subsection 62-780.200(11), F.A.C.] required by subsection 62-780.220(2), Florida Administrative Code (F.A.C.). If a site is subject to Chapter 62-780, F.A.C., notification shall be postmarked within 10 days from the date of discovery of contamination in any medium beyond the boundaries of the property at which site rehabilitation was initiated pursuant to this chapter. The notification shall be submitted to the Florida Department of Environmental Protection (FDEP), Division of Waste Management, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400 via Certified Mail (Return Receipt Requested), and copies shall be mailed to the County Health Department, to the appropriate FDEP District Office where the property is located, and to all known lessees and tenants of the property at which site rehabilitation was initiated (see Note on page 2). This form and any attached table(s) shall be completed in entirety.

1. Attach completed and separate tables by medium (groundwater, soil, surface water, or sediment) that list all sampling locations; sampling date(s); names of contaminants detected above CTLs; their corresponding CTLs; the contaminant concentration(s); and whether the CTL is based on health or nuisance, organoleptic, or aesthetic concerns.
2. Attach copies of applicable laboratory reports.
3. Attach a vicinity map that shows all of the location(s), date(s) and type(s) of sample(s) collected, the laboratory analytical result(s) for each sample, and the property boundaries for the property at which site rehabilitation was initiated pursuant to this chapter and the real property(ies) at which contamination was discovered.

4. Information regarding the property that is the subject of this site rehabilitation:

FDEP Facility Identification Number: COM_216525

Owner of Property: ECC Properties LLC

Contact Person: Jeffrey Hooper

Telephone Number: 305-968-6832

E-mail Address: ALLENSTPRO@AOL.COM

Operator (if applicable):

Property Physical Address: 3450 NW North River Drive, Miami FL

Property Mailing Address: PO Box 565611, Miami, FL 33256

5. Actions taken or proposed actions regarding suspected contamination (e.g., provide additional notice, removal of contaminated soil, connection to public water supply well, provision of bottled water, etc.):

Additional assessment and monitoring in preparation of Risk Based Corrective Action Proposal will be performed.

To the best of my knowledge and belief, all information submitted on this form is true, accurate, and complete.

Jeffrey Hooper

Date Signed: 8-6-09

This form is submitted pursuant to subsection 62-780.220(2), F.A.C., to notify the FDEP, the applicable County Health Department and lessees and tenants of the property at which site rehabilitation was initiated pursuant to this chapter about discovery of contamination beyond the boundaries of the property at which site rehabilitation was initiated pursuant to this chapter. Submission of this form is not an admission of responsibility, liability, or risk associated with potential or actual exposure to such contamination.

Form #62-780.900(1)
Page Two

Note: A separate page two of Form #62-780.900(1) shall be completed for each separate parcel of real property at which contamination was discovered beyond the boundaries of the property at which site rehabilitation was initiated pursuant to this chapter. Please make additional copies of page two as necessary and staple all pages together for submission. This page of this form does not need to be included in the information that is sent to the lessees and tenants of the property at which site rehabilitation was initiated.

1. Street address of real property at which contamination was discovered beyond the boundaries of the property at which site rehabilitation was initiated pursuant to this chapter:

3440 NW North River Drive, Miami FL

2. Parcel ID # for the real property identified in 1. above: 30-3128-014-2480

3. Name of record owner(s) of the real property identified in 1. above: Consolidada Interamericana S.A.

4. Address(es) of record owner(s) as listed in current county property tax office records (if different from answer provided in 1.):

2945 NW 21 Ter, Miami FL 33142

5. Telephone Number(s) of record owner(s): UNKNOWN

6. Date of discovery of contamination at real property identified in 1. above: August 8, 2006

Remainder of page intentionally left blank.

**Former Pure Lead (ECC Investments LLC)

"I" qualifier indicates the reported value is between the laboratory method detection limit and the reporting limit.

"U" qualifier indicates the compound was analyzed for but not detected.

Direct exposure value based on acute toxicity considerations.

Bolded values exceed Soil Cleanup Target Levels.

* means the sample was reanalyzed.

† = Leachability values may be derived using the SPLP Test to calculate site-specific SCTLs or may be determined using TCLP in the event oily wastes are present.

RE: Former Pure Lead

KSA Workorder: P002803

Dear Craig Clevenger,

Enclosed is a copy of your laboratory report for test samples received by our laboratory on 08/10/06 12:30.

Unless otherwise noted in an attached project narrative, all samples were received in acceptable condition and processed in accordance with the referenced methods/procedures. Results for these procedures apply only to the samples as submitted.

This data has been produced in accordance with NELAC standards. This report shall not be reproduced except in full, without the written approval of the Laboratory.

If you have any questions or require further information, please do not hesitate to contact me.

Sincerely,

Paul K. Canevaro

RE: Former Pure Lead
KSA Workorder: P003424

Dear Craig Clevenger,

Enclosed is a copy of your laboratory report for test samples received by our laboratory on 08/31/06 21:18.

Unless otherwise noted in an attached project narrative, all samples were received in acceptable condition and processed in accordance with the referenced methods/procedures. Results for these procedures apply only to the samples as submitted.

This data has been produced in accordance with NELAC standards. This report shall not be reproduced except in full, without the written approval of the Laboratory.

If you have any questions or require further information, please do not hesitate to contact me.

Sincerely,

Paul K. Canevaro
V.P. Technical Services

Enclosure(s)

CASE NARRATIVE

KSA Work Order #: P003424

Project Name: Former Pure Lead

I. Sample Receiving Notes

All samples listed on the Chain of Custody identified with KSA Work Order # P003424 were received with containers intact, correctly preserved, and at the proper temperature for the requested analyses.

II. Analytical Data Notes

The analyses were performed in accordance with KSA Environmental Laboratory SOP's and industry-standard methodologies in compliance with FDEP/NELAC criteria. There were no notable problems encountered in the analytical process.

III. Quality Control Notes

There were no significant quality control anomalies associated with this work order.

**RE: Former Pure Lead
KSA Workorder: P003425**

Dear Craig Clevenger,

Enclosed is a copy of your laboratory report for test samples received by our laboratory on 08/31/06 21:20.

Unless otherwise noted in an attached project narrative, all samples were received in acceptable condition and processed in accordance with the referenced methods/procedures. Results for these procedures apply only to the samples as submitted.

This data has been produced in accordance with NELAC standards. This report shall not be reproduced except in full, without the written approval of the Laboratory.

If you have any questions or require further information, please do not hesitate to contact me.

Sincerely,

Paul K. Canevaro

V.P. Technical Services

Enclosure(s).

CASE NARRATIVE

KSA Work Order #: P003425
Project Name: Former Pure Lead

I. Sample Receiving Notes

All samples listed on the Chain of Custody identified with KSA Work Order # P003425 were received with containers intact, correctly preserved, and at the proper temperature for the requested analyses.

II. Analytical Data Notes

The analyses were performed in accordance with KSA Environmental Laboratory SOP's and industry-standard methodologies in compliance with FDEP/NELAC criteria. There were no notable problems encountered in the analytical process.

III. Quality Control Notes

There were no significant quality control anomalies associated with this work order.

CASE NARRATIVE

KSA Work Order #: P003425

Project Name: Former Pure Lead

I. Sample Receiving Notes

All samples listed on the Chain of Custody identified with KSA Work Order # P003425 were received with containers intact, correctly preserved, and at the proper temperature for the requested analyses.

II. Analytical Data Notes

The analyses were performed in accordance with KSA Environmental Laboratory SOP's and industry-standard methodologies in compliance with FDEP/NELAC criteria. There were no notable problems encountered in the analytical process.

III. Quality Control Notes

There were no significant quality control anomalies associated with this work order.

RE: Former Pure Lead

KSA Workorder: P003077

Dear Craig Clevenger,

Enclosed is a copy of your laboratory report for test samples received by our laboratory on 08/10/06 12:30.

Unless otherwise noted in an attached project narrative, all samples were received in acceptable condition and processed in accordance with the referenced methods/procedures. Results for these procedures apply only to the samples as submitted.

This data has been produced in accordance with NELAC standards. This report shall not be reproduced except in full, without the written approval of the Laboratory.

If you have any questions or require further information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Paul K. Canevaro".

CASE NARRATIVE

KSA Work Order #: P003077
Project Name: Former Pure Lead

I. Sample Receiving Notes

All samples listed on the Chain of Custody identified with KSA Work Order # P003077 were received with containers intact, correctly preserved, and at the proper temperature for the requested analyses.

II. Analytical Data Notes

The analyses were performed in accordance with KSA Environmental Laboratory SOP's and industry-standard methodologies in compliance with FDEP/NELAC criteria. There were no notable problems encountered in the analytical process.

III. Quality Control Notes

There were no significant quality control anomalies associated with this work order.
